

# Moving Forward Together

## Community Engagement and Outreach

May 2017 through January 2019

In May 2017, the Florida Department of Transportation (FDOT) District Seven launched Tampa Bay Next and committed to a new approach to transportation planning. We are engaging in two-way dialogue, listening to the community, and collaborating with partner agencies on an unprecedented level.

# What is Tampa Bay Next?

**Tampa Bay Next is a program to modernize Tampa Bay's transportation infrastructure.**

# What Problems Are We Trying to Solve?

**SAFETY**

**CONGESTION**

**TRAFFIC OPERATIONS**

**CHOICE**

Our goal is to improve safety and mobility through innovation, collaboration, and community engagement.

# You Talked. We Listened.

Removed future express lanes from consideration for I-275 north of downtown Tampa

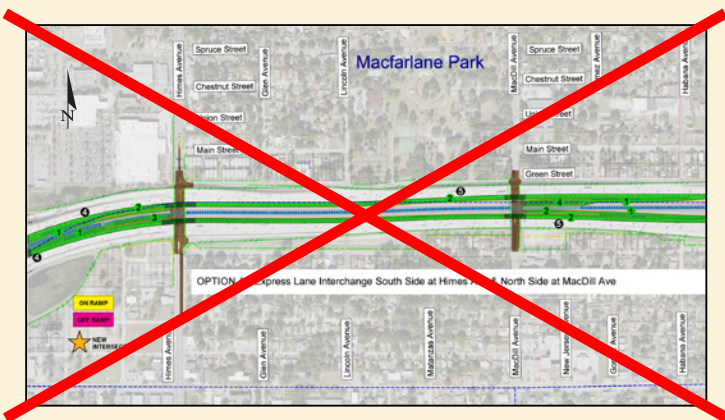

Evaluating I-75 as the Regional North-South Express Lane Corridor

Developed additional Downtown Interchange options that drastically reduce the potential Right of Way impacts

Made adjustments to express lanes access points in the Westshore/West Tampa area

Made adjustments to the Howard Frankland Bridge project plans to include a shared use path. Construction to begin early 2020.

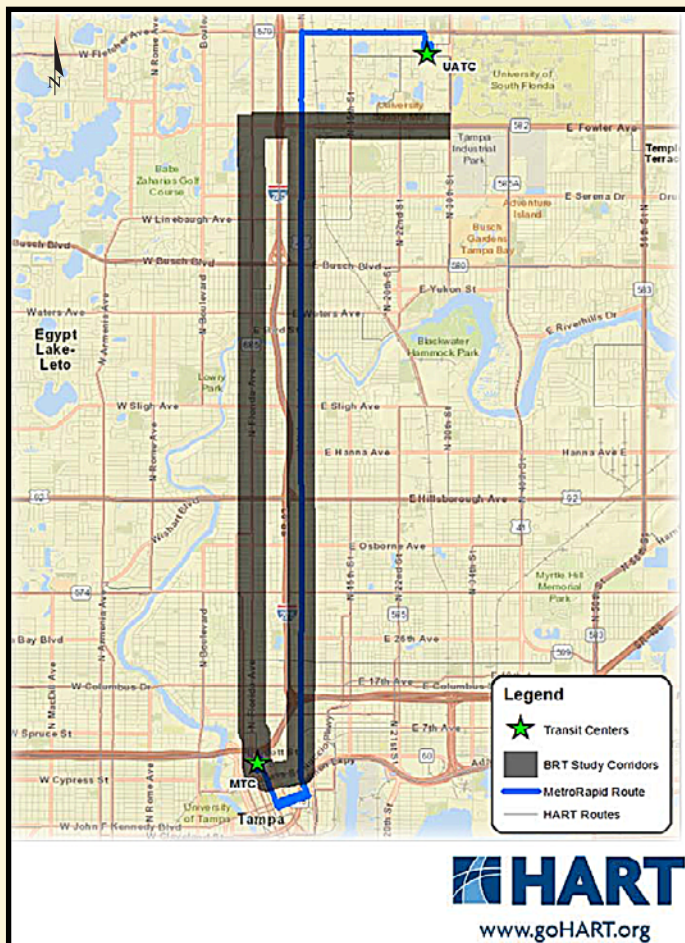

# Input Leads To Action.

Developed operational improvements to provide near-term congestion relief. Construction underway in Spring 2019.

Partnered with HART to fund a \$2.5 million study to create street-level Bus Rapid Transit along Nebraska, Florida, and Fowler

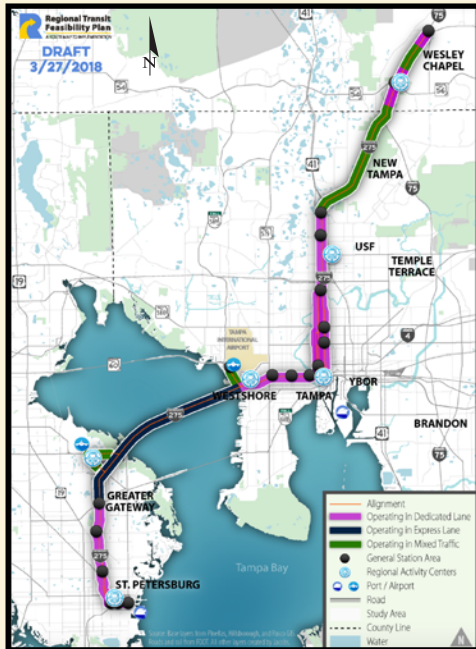

Evaluating lane continuity and an express lane project from downtown St. Petersburg to the Howard Frankland Bridge

# You Talked. We Listened.

Committed \$5 million to project development for a regional transit catalyst project to be identified by TBARTA

Developed the Citizens Transportation Academy webinar series to educate the public about how transportation is planned and funded in their community

Developed Traffic Systems Maintenance and Operations (TSM&O) strategies for interstates and arterials to maximize the use of existing infrastructure through technology use

Worked with agency partners to leverage outreach opportunities and offer the public a comprehensive look at the projects and initiatives in their area

# Input Leads To Action.

Looked for ways to leverage highway funding for transit opportunities, such as bus on shoulder

Advanced funding for the Heights Mobility Study to improve safety and mobility on Florida Ave. and Tampa St. in Tampa's urban core

Extended Fowler Ave. Multimodal Study limits to connect all the way to I-75

Funded studies to identify future Intermodal Centers in Downtown Tampa, Westshore, University (USF) Area, Wesley Chapel, and Gateway Area

## What is an Intermodal Center?

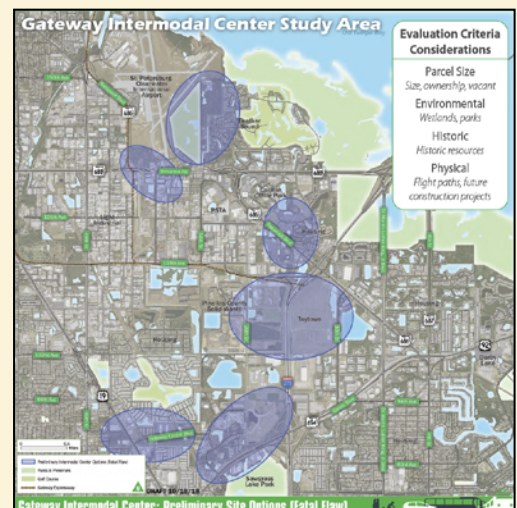

An intermodal center is a facility that connects several types of transportation modes and serves to enhance regional transportation connectivity. It can incorporate but is not limited to the following service options:

- Local bus
- Bus rapid transit (BRT)
- Express bus
- Rail
- Intercity bus
- Taxis
- Bicycle and Pedestrian facilities
- Ride Share

Plans for an intermodal center may include:

- Transit platforms
- Park-and-ride facility
- Bus layover zones
- Rideshare facilities
- Customer service center

Intermodal centers have the opportunity to promote new development in the surrounding area and can support transit oriented development.
